

The Greater Calendar

The Greater Calendar (2026–2027): Introduction

The Greater Calendar represents a deliberate reclamation of ancient chronological principles, drawing inspiration from the primordial order of creation as depicted in sacred texts and the calendrical system attributed to Enoch. Rooted in scriptural teachings that emphasize a 364-day solar year, this framework establishes a harmonious alignment among weeks, months, seasons, and sacred observances, ensuring that feast days, Sabbaths, and annual cycles remain perpetually synchronized without deviation.

Scriptural Foundations

Scriptural sources consistently advocate for a 364-day year, which facilitates a precise division into 52 weeks of seven days each. This structure is articulated five times in the First Book of Enoch (e.g., 1 Enoch 72:37, 74:10, 74:12, 81:7, 81:11), twice in the Book of Jubilees (Jubilees 6:32, 6:38), and twice in the Dead Sea Scrolls. The Book of Jubilees explicitly contrasts this solar-based system with lunar alternatives, warning that adherence to a 365-day lunar calendar leads to errors in the timing of feasts, Sabbaths, months, and years (Jubilees 6:32–38). Similarly, the Astronomical Book within 1 Enoch (chapters 72–82) delineates a year of exactly 364 days, divided into four quarters of 91 days each, with the sun and stars maintaining unerring precision to uphold this order (1 Enoch 74:12). This calendrical model, also evidenced in Qumran texts such as Scroll 4Q324d, prioritizes divisibility by seven, ensuring that sacred occasions consistently align with fixed weekdays and avoiding conflicts with Sabbaths—a feature absent in lunar systems.

Yet the calendar does not rest on later witnesses alone. The LORD Himself remained involved with the timekeeping of His people. While they were still in Egypt, He spoke unto Moses and Aaron, saying, “This month shall be unto you the beginning of months: it shall be the first month of the year to you” (Exodus 12:1–2). God did not leave the starting point of the year to human invention; He appointed the first month in the season of deliverance, at the turning of spring, so that His feasts and Sabbaths would begin from His mouth and not from the world’s reckoning.

Structural Overview

The Greater Calendar comprises 364 days, organized into 13 months of 28 days each, yielding a perfect cycle of 52 weeks. In keeping with the word of the LORD in Exodus 12:1–2, the year commences on the Sunday (sunset Saturday) of the week of the Spring Equinox—the first month appointed unto His people—coinciding with the Astronomical New Year. This anchors the system both to the Creator’s spoken instruction and to celestial events, while remaining unaffected by equinoctial precession. Each month renews at 28-day intervals, promoting rhythmic consistency.

The diurnal cycle adheres to biblical precedent, with the 24-hour day initiating at sunset and concluding at the subsequent sunset, as affirmed in Genesis: “And the evening and the morning were the first day” (Genesis 1:5). This structure ensures that every festival, commemoration, and appointed time falls on the same day of the week annually, fostering enduring stability in observance. In the month grids that follow, each day-box is divided by a diagonal: the upper triangle is evening (sundown); the lower triangle is morning.

Feast Days and Notable Observances

The calendar integrates key biblical festivals, adapted to its fixed framework:

- 10th day of the 1st Month: Passover Preparations Day
- 14th day of the 1st Month: The Feast of Passover
- 15th–21st days of the 1st Month: 7-day Feast of Unleavened Bread
- 22nd day of the 1st Month: Resurrection Day
- 26th day of the 1st Month: First-Fruits of the Barley Harvest
- 1st day of the 2nd Month: Waving of the Sheaf / Offering for Harvest
- 22nd day of the 3rd Month: Feast of Weeks / Harvest Thanksgiving Day (Harvest of Souls)
- 1st day of the 7th Month: Day of Blowing the Trumpets
- 10th day of the 7th Month: Sabbath of Rest for the remembrance of atonement through Christ
- 15th–22nd days of the 7th Month: Feast of Ingathering, or the Tabernacles of the Lord
- 15th day of the 10th Month: Nativity of Yahusha

This calendrical system, by aligning human timekeeping with divine ordinance, invites practitioners to engage in a profound synchronization with the rhythms of creation, as envisioned in ancient prophetic and apocalyptic literature.

Comments and Conclusion

As we move ahead into being more in tune with working according to The Creator’s timing, in respect to His Instructions, Statutes, Feasts, and Sabbaths; We know that all things will continue to work together for our good, even at a more effectual capacity, because we love God by following His instructions, with the knowing that His instructions serve a purpose; proving the perfect will of God for us (Romans 8:28; 12:2, Exodus 23:25, 1 John 5:3).

Therefore be strong according to the word covenanted immediately after bondage in Egypt — to abide in place on the seventh day to be still in holy convocation with the Spirit of Creation, and fear not — For the glory of this latter house shall be greater than of the former, saith the Lord of hosts: and in this place will I give peace, saith the Lord of hosts (Haggai 2:4-5, 9). [Exodus 16:28-30; 35:3; Psalm 4:4]
